# Availability Calculations

**Team:** 3 People

**Capacity per day:** 2 hours

**Duration of Sprint:** 1 week (5 days)

**Total Capacity** =  $(3 * 2 * 10) = 30$  Hours

**Focus Factor (F.F.)** = 0.6

**Real Capacity** =  $30 * 0.6 = 18$  Hours

# Sprint Goal

Create GUI for dashboard, account management and Income/Expense Categories.

# Sprint Backlog

# Scrum Meeting

Our team scrum meeting outlines the target tasks for the day and implementing the GUI design. Communication was mostly verbal and we expect to fully set up the GUI by the end of the sprint.

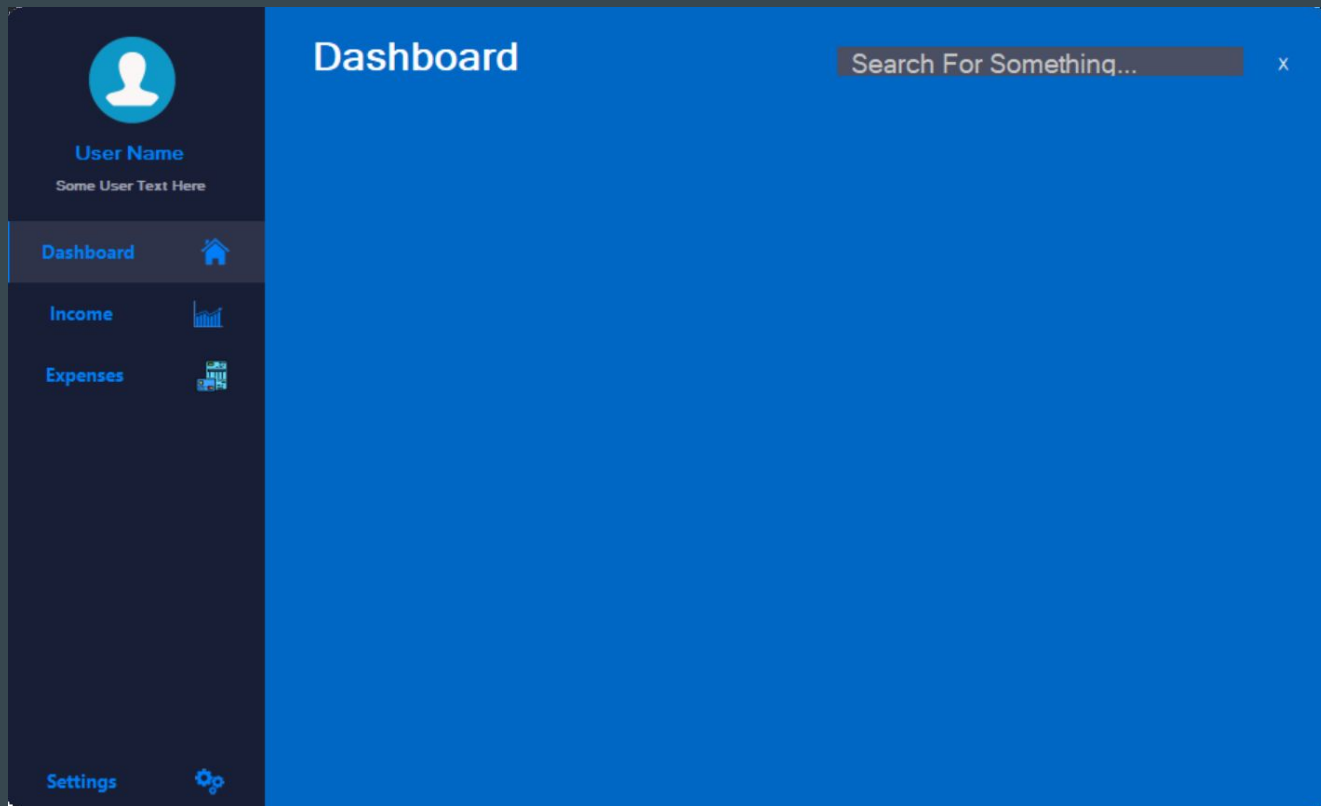

# Test Plan

Test Cases

| User Function Name            | User Function Description  | Expected Results  | Self-Testing Results  | Notes    |
|-------------------------------|--|---|---|----------|
| Set up Windows Form           | Upon opening the application, buttons will be generated along with the rest of the design interface  | The application directs user to the dashboard from start.               | Application was able to display graphics aside but cannot move window | Sprint 1 |
| Create Tabs                   | Create button tabs for the application to allow the users to switch between tasks.                   | The buttons are in the left column of the application and is clickable. | Tabs are displayed correctly with the right titles                    | Sprint 1 |
| Animate when a tab is clicked | Upon clicking a button tab an animation will display that notifies the user that the tab is selected | Switching between tabs will play an animation one tab at a time.        | Currently selected tabs are highlighted when clicked.                 | Sprint 1 |

# UX Mockup

# Version Control Code Changes

The screenshot displays the Visual Studio interface during a commit process. The top menu bar includes File, Edit, View, Repository, Branch, and Help. The 'Repository' tab is active, showing the 'Current repository' as 'Student-Expense-Tracker-and-...' and the 'Current branch' as 'main'. A 'Fetch origin' button indicates the last fetch was 25 minutes ago. The 'Changes' pane on the left shows 16 changes, with a 'History' tab selected. The 'Add files via upload' pane lists 38 files, including Dashboard.sln, App.config, Dashboard.csproj, Form1.Designer.cs, Form1.cs, Form1.resx, Conact.png, New Text Document.txt, Untitled-11.png, calendar.png, chart-diagram.png, diagram.png, downloads.png, expenses.png, home.png, money-bag.png, settings.png, and home.png. The 'Initial commit' section shows the commit was made by 'crypticle' on Nov 11, 2020. The 'Add files via upload' pane also shows a list of files with their status (e.g., 'crypticle • 3h'). The 'Commit' pane on the right shows the commit message '@@ -0,0 +1,25 @@' and the commit details, including the commit hash '5871C69C-B2E2-46A4-A15A-04C5130AC8ED' and the commit message 'Microsoft Visual Studio Solution File, Format Version 12.00'.

# Sprint Retrospective

## Good:

- Initial UX design completed
- Repositories, etc were established
- Generating tasks within the backlog.

## Bad:

- Team communication was not performed efficiently
  - Team availability was not evaluated properly
- Difficulties in assigning tasks to member and priorities.
