No credit card required

What we know about our users

- Mainly Students
- Always on a budget
- Always need to be financially conscious
- Limited time to budget for the week
- Not having a plan for their money
- Not knowing where their money is going
- Not determining Wants vs Needs.

Where our product's current UX falls short

- Data does not save externally
- No login system
- Does not display user data correctly
- Can't move the window and minimize.
- Does not tabulate total Revenue, Expenses, or resulting Balances.

Solution

- Updating task backlog
- Meet up for Scrum meetings
- Communicating through Discord
- Prioritize and assigning tasks
- Update GitHub repository
- Test functionality of features

Plan

- Full functionality of basic features
- Allow user to track income and expenses
- Allow user to create income and expense categories
- Display history of changes in balance
- Modifying expense/income entries
- Implement a user login system
- Allow user to filter by categories
